

Retirement Gold

American Equity
Gold Standard for a
Secure Retirement

The one who works for you.

Retirement Gold

A Good Plan is Always Better Than a Good Guess.

The security of your future begins today with sound planning, and building a dependable source for lifetime income.

Starting with our easy-to-understand product descriptions, American Equity works with you to find the retirement solutions that fit your day-to-day lifestyle as you prepare for your life-long goals.

Every day we work hard to provide safe, secure products backed by our award-winning customer service. And, each day people make the right choice to start planning with us for the life they want...with a strategy they understand.

We Can Help You Get to Where You Want to Go.

As a hard working individual, you take your finances seriously. You have invested your time and energy in order to build as well as sustain a quality of life that suits you and your family. As you plan for retirement, it is important to consider any number of factors that can affect your lifestyle:

- Safety of retirement dollars
- Tax effect on your standard of living
- Family illness
- Money saved for retirement

Indexed Annuities: The Right Product for the Right Time.

Indexed annuities are fixed annuities that provide an opportunity to potentially earn more interest than traditional fixed annuities and other safe money alternatives.

This is done by basing interest earned on an increase in an equity or bond index. You control the annuity by choosing the crediting method on each Contract Anniversary. The most common used indices are:

- S&P 500®
- S&P 500® Dividend Aristocrats® Daily Risk Control 5% Index
- 10-Year U.S. Treasury Bond

While the values of this contract may be affected by an external index, this annuity does not participate directly in any stocks or equity investments. You aren't buying shares of stock or an index. Dividends paid on the stocks which comprise the indexes don't increase your annuity earnings.

Are You Prepared?

- 46% of Americans have less than \$10,000 saved for retirement. (Employee Benefit Research Institute, 2013)
- 40% of baby boomers now plan on working until they die. (AARP, 2010)
- 36% of Americans say they don't contribute anything at all to their savings. (Careerbuilder.com, 2009)
- 87% of adults say they are not confident about having more money for a comfortable retirement. (Lifehappens.org, 2014)

A History of American Equity's Index-5¹ (9/30/98 – 9/30/14)

In retirement planning, we like to provide a clear explanation as well as a product demonstration to help you understand your options. Here is an example of an American Equity contract over the course of 15 years.

The Index-5 product (below) did exactly what it was supposed to do – give the contract owner the opportunity to accumulate value based on the appreciation of the S&P 500[®] Index, without the risk of loss of premium in years when the S&P 500[®] was negative. Meanwhile, all of this is supported by a minimum guarantee.

This is not an illustration on how indexed annuities will perform, but it does demonstrate the powerful benefits of indexed annuities with the annual reset interest crediting design.

All of our current products offer annual reset interest crediting design.

Past performance not an indication of future results.

Retirement Gold

Safety in Numbers.

Most importantly, your premium and credited interest can never be lost due to index volatility. Your indexed annuity with us is actually a contract backed by American Equity Investment Life Insurance Company; you are not purchasing shares of stock or indices. Your funds are safe and secure with us – one of the leading annuity providers on the market.

Security You Can Plan For.

As you plan for your retirement, whether it is a far off goal or soon-to-be reality, our innovative tax-deferred annuities can help you maximize growth while not compromising the safety of your hard earned dollars.

Your nest egg can be affected by any number of conditions. As your partner in planning, American Equity has outlined five core considerations for your retirement future:

- Safety of Principal
- Guaranteed Income
- Liquidity
- Income Taxes
- Avoidance of Probate

Safety of Principal

Fixed annuities, by their very nature, are considered a safe money alternative. Your contract is between you and the insurance company for guaranteed interest and guaranteed income options. This means your guarantees are backed by the financial strength and claims paying ability of American Equity.

Guaranteed Income

American Equity provides you with a guaranteed income with this tax-deferred annuity. You have the ability to choose from several different options, including payments for a specified number of years or income for life...no matter how long you live.

Liquidity

American Equity provides you with opportunities to withdraw funds at any time (subject to applicable surrender charges). Our annuity contracts allow penalty-free withdrawals of up to 10% after the first contract anniversary.

American Equity also has available certain riders that increase liquidity in the event of confinement to a nursing home, or if diagnosed with a terminal illness. (Riders not available in all states.)

Please note:

You may be subject to a 10% federal penalty if you make withdrawals or surrender this annuity before age 59½. If this annuity is within a qualified plan all distributions may be taxable. Under current tax laws annuities grow tax deferred. An annuity is not required for tax deferral in a qualified plan. Any distribution may cause a taxable event. Neither American Equity nor our agents offer legal, investment or tax advice. Please consult your own personal advisor for these matters.

Income Taxes

One of the primary advantages of deferred annuities is the opportunity to accumulate a substantial sum of money by allowing your premium and interest to grow tax-deferred. Unlike taxable investments, you pay no taxes on your annuity interest until you begin to take withdrawals or receive income. This allows your money to grow faster than in a taxable account.

With our annuities you earn interest on your premium, interest on your interest and interest on what you would normally pay in income taxes.

The chart below illustrates how much more your money grows over a 20-year period with a tax-deferred annuity compared to an account that is currently taxed.

Taxable vs. Tax-Deferred

Note: Example assumes 3% annual interest rate and 28% tax bracket.
This hypothetical example is for illustrative purposes only.

Avoidance of Probate

When planning for the future, a central concern is for our loved ones after we are gone. In the case of premature death, your beneficiaries have the accumulated funds within your annuity available to them and may avoid the expenses and delay of probate. Your named beneficiaries can choose to receive the proceeds as monthly income or a lump-sum payment.

Retirement Gold

Gold Standard in Retirement Planning

Retirement Gold is a fixed indexed annuity that allows for the accumulation of money over a long period of time. Because of the bonus credited on all premium paid in the first contract year, it allows for a more rapid accumulation of interest than other fixed annuities. The bonus is applied to your Contract Value immediately, but is vested over time. In addition, in the event of death, the bonus is 100% vested immediately. The beneficiary receives the entire Contract Value, including 100% of the bonus.

So, just how do the interest crediting and bonus vesting features of Retirement Gold work, and how do they affect your long-term accumulation of wealth for retirement? Let's take a look:

Premium Payment & Allocation

You may allocate your initial premium payment into any value combination you choose, including into the Fixed Value or any of the Indexed Values. Any additional premium payments you make after your initial premium will automatically go into the Fixed Value. At each Contract Anniversary, you may choose to transfer between the different values, giving you greater flexibility.

Your Contract Value equals the sum of your Fixed Value, plus your Indexed Value. Your Accrued Premium Amount is the portion of the Contract Value resulting from premiums paid plus interest, less withdrawal amounts.

Interest Crediting

You have nine different value options to choose from in determining how we will credit interest to your Contract Values. Additionally, we provide a Minimum Guaranteed Interest Rate which guarantees you a minimum return upon surrender. We calculate all Interest Rates as effective annual rates, compounded daily.

To calculate withdrawal or surrender amounts we track Interest Credits to Accrued Premium Amount and Accrued Bonus Amount on a pro-rata basis.

Bonus

We guarantee an 8% Premium Bonus on all premiums received in the first contract year. We add this bonus to the Contract Value on the date we receive the premiums, and we allocate it to the same values as your premiums.

Accrued Bonus Amount is the portion of the Contract Value resulting from the bonus, plus interest, less withdrawal amounts. Surrender Charges do not apply to your Accrued Bonus Amount.

Bonus Vesting

The bonus vests over a 14-year period. Starting in the 4th contract year, you become vested in a percentage of the bonus, until you become 100% vested at the end of the 14th contract year. The vested amounts on the bonus are the amounts that you do not forfeit as a result of an early Partial Withdrawal or Surrender.

If you take a Partial Withdrawal or Surrender you will receive the vested portion of your bonus according to the following schedule:

1. **At Partial Withdrawal** – the pro-rata portion of the Partial Withdrawal Amount allocated to your Accrued Bonus Amount multiplied by the Bonus Vesting %; or

Premium Bonus Vesting Schedule	
Contract Yr	% Vested
1	0.00
2	0.00
3	0.00
4	8.33
5	16.67
6	25.00
7	33.33
8	41.67
9	50.00
10	58.33
11	66.67
12	75.00
13	83.33
14	91.67
15+	100.00

2. At Surrender – your Accrued Bonus Amount multiplied by the Bonus Vesting % minus the non-vesting portion of any Penalty-free Withdrawals taken from your Accrued Bonus Amount in the last 12 months.

The bonus is always 100% vested in the Death Benefit.

Withdrawals

You may make withdrawals from your Contract Value at any time. Withdrawals include Penalty-free Withdrawals and Partial Withdrawals. We will determine withdrawal proceeds taking into consideration any Penalty-free amount available, any Surrender Charges, and Bonus Vesting.

1. Penalty-free Withdrawals

Once each contract year, after the first anniversary you may take one Penalty-free Withdrawal of up to 10% of the Contract Value. Penalty-free Withdrawals are not subject to Surrender Charges and Bonus Vesting.

2. Partial Withdrawals

You may make Partial Withdrawals at any time. We will first determine any amount of the Partial Withdrawal that would be penalty-free. Amounts above the penalty-free amount are subject to Surrender Charges and bonus vesting schedule.

All withdrawals are pro-rated between the Accrued Premium Amount and the Accrued Bonus Amount of the Contract Value. We apply a Surrender Charge to your Accrued Premium Amount and vesting to your Accrued Bonus Amount. **Withdrawals in excess of the Penalty-free Withdrawal Amount will cause loss of part of your Accrued Bonus Amount.**

Death Benefit

The Death Benefit is the full Contract Value of your annuity contract and is paid in a lump sum with no surrender charges, plus 100% Bonus Vesting, to your named beneficiaries. Other payout options may also be available.

Accessibility – 10% Penalty-Free Withdrawals

We understand that access to your money is very important. While most financial vehicles charge penalties for withdrawals before maturity, this annuity offers an annual 10% Penalty-free Withdrawal once each year, beginning in year 2. In the first year, you may receive systematic withdrawals of interest or Required Minimum Distributions from the Fixed Interest Account as quickly as 30 days after your contract is issued.²

NCR-100³

This rider is automatically included at no cost, for annuitants under age 75 at issue. This allows you to take a 100% Penalty-free Withdrawal after the third Contract Anniversary if confinement in a Qualified Nursing Care Center occurs after the end of the third contract year and continues for at least 90 consecutive days. If confinement occurs in the second or third contract year, then a 20% Penalty-free Withdrawal is allowed.

TIR-100³

This rider is automatically included, at no cost, for annuitants under age 75 at issue. This allows you to take an additional Penalty-free Withdrawal of up to 100% of the Contract Value if the diagnosis of a terminal illness by a qualified physician occurs after the first contract year, and is expected to result in death within one year.

Retirement Gold

Indices Used

Retirement Gold offers the following indices:

- **The S&P 500® Index** contains stocks from 500 industry leaders and is widely regarded as a leading benchmark for U.S. stock market performance.
- **The S&P 500® Dividend Aristocrats Daily Risk Control 5% Index** is a volatility control index that consists of the S&P 500 Dividend Aristocrats Index and a cash (accruing interest at 3 month LIBOR) component. The Index is dynamically adjusted between the two components to target a 5% level of volatility.
The S&P 500 Dividend Aristocrats Index is made up of S&P 500 members that have followed a policy of consistently increasing dividends every year for at least 25 consecutive years. This Index is well diversified across all market sectors.
- **10-Year U.S. Treasury Bond** is a government-issued debt designed to mirror general market interest rates.

Index Crediting Method

To allow you greater flexibility in utilizing our interest crediting methods, American Equity offers 8 index choices and 1 fixed value choice. The annuity structure allows for annual transfer between different values. A Transfer of Values (TOV) letter and form are sent one month prior to the Contract Anniversary as a courtesy to you.

- **Annual Monthly Average** – Index Credits are based on 12 dates during the year. The average is calculated by adding the 12 monthly Index amounts and dividing by 12. Caps or Participation Rates are applied to the Index Credit Calculation.
- **Annual Point to Point** – On each Contract Anniversary the Index value is compared to the previous year's Index value. The Index Credit is based on increase in the Index value from point to point. Caps or Participation Rates are applied to the Index Credit Calculation.
- **Monthly Point to Point** – Each month a percentage of change is calculated. Caps are applied to any increase. The sum of the resulting monthly values, less an asset fee, is the Index Credit applied on each Contract Anniversary.

	Annual Monthly Average	Annual Point to Point	Monthly Point to Point
Interest Credit Calculation	Average sum of Index closes on monthly Contract Anniversary	Percentage of annual increase in the Index	Annual sum of monthly changes in the Index
Index Availability	S&P 500®	S&P 500® & 10-Year U.S. Treasury Bond	S&P 500®
Frequency of Interest Credit	Annually	Annually	Annually
Cap, Asset Fee Rate (AFR) or Participation Rate Available	Choice of Cap or Participation Rate	Choice of Cap or Participation Rate (S&P 500® only)	Cap & AFR

- **Performance Triggered (PT)** – On each Contract Anniversary the PT Index Price is compared to the previous anniversary's PT Index Price. The PT Rate is credited if the PT Index Price on the current Contract Anniversary is equal to or greater than the previous Contract Anniversary's Index Price. The minimum PT Rate is 1%.
- **Bond Yield with Cap (BYC)** – On each Contract Anniversary the Bond Price is compared to the Bond Price on the previous anniversary. The Index Credit is based on the decrease in the Bond Price. The BYC Interest Credit Calculation is determined by first applying the Cap followed by the Asset Fee.
- **Volatility Control Index** – On each Contract Anniversary the Index value is compared to the previous year's Index value. The Index Credit is based on the increase in the Index value from point to point, less an Asset Fee.
- **Fixed Interest** – This is based on a current declared interest rate guaranteed to never be less than Fixed Value Minimum Guaranteed Interest Rate stated in the annuity contract.

Calculation Information:

- **Cap Rate** – Applies to Annual Monthly Average and Annual Point to Point Crediting Methods.
 - An upper limit is applied to the Index Credit. Cap rates are subject to change, declared each Contract Anniversary, and guaranteed to never be less than 1%. **–OR–**
- **Cap Rate/Asset Fee Rate** – Applies to the Monthly Point to Point and Bond Yield with Cap Crediting Methods.
 - **Cap Rate** – An upper limit is applied to the Index Credit. Cap rates are subject to change, declared each Contract Anniversary, and guaranteed to never be less than 1%. (and)
 - **Asset Fee Rate (AFR)** – A deduction used in calculation of Index Credit. AFR is set at issue, and guaranteed for the life of the annuity contract. **–OR–**
- **Participation Rate (PR)** – Applies to Annual Monthly Average or Annual Point to Point Crediting Methods.
 - The stated percentage of any Index increase credited to the annuity contract. PR's are subject to change, declared annually and guaranteed to never be less than 10%. **–OR–**
- **Asset Fee Rate Only (AFR)** – Applies only to Volatility Control Index Crediting Method.
 - A deduction used in calculation of Index Credit. The AFR is subject to change, declared each Contract Anniversary and guaranteed to never be more than 10%.

	Performance Triggered (PT)	Bond Yield with Cap	Volatility Control Index	Fixed Rate
	PT Index Price equal to or greater than the previous anniversary's PT Index Price	Percentage of annual decrease in the Bond Price	Percentage of annual increase in the index less an asset fee	Fixed Interest Rate Declared
	S&P 500®	10-Year U.S. Treasury Bond	S&P 500® Dividend Aristocrats Daily Risk Control 5% Index	Not Applicable
	Annually	Annually	Annually	Daily
	Not applicable	Cap & AFR	AFR only	Not Applicable

Retirement Gold

Minimum Guaranteed Surrender Value (MGSV)

At no time will the Surrender Value of the Contract be less than 87.5% of Premium received, less any withdrawals, accumulated at Minimum Guaranteed Interest Rate stated in the Contract. The MGSV is a separate calculation from Contract Value.

Cash Surrender Value

The Cash Surrender Value is the amount we pay if you surrender the Contract. It equals the greater of the Accrued Premium Amount minus any surrender charges, plus the vested portion of the Accrued Bonus Amount, or the Minimum Guaranteed Surrender Value.

Surrender Charges

We deduct a Surrender Charge on Partial Withdrawals or Surrenders during the Surrender Charge Period according to the following schedule:

1. At Partial Withdrawal, the Partial Withdrawal from your Accrued Premium Amount multiplied by the Surrender Charge percentage; or
2. At Surrender, your Accrued Premium Amount, plus any Penalty-free Withdrawals from your Accrued Premium Amount in the last 12 months, multiplied by the Surrender Charge Percentage.

Surrender Charge	
Contract Yr	Surrender Charge % Age 0-78
1	12.5
2	12.0
3	12.0
4	11.0
5	10.0
6	9.0
7	8.0
8	7.0
9	6.0
10	4.0
11+	0.0

Annuitization

You may annuitize your Surrender Proceeds at any time after the first Contract Year, for a Life Option, with at least 5 years certain.

Other Information

- We may change your Annuity Contract from time to time to follow federal or state laws and regulations. If we do, we'll tell you about the changes in writing.
- Like any annuity issuer, American Equity incurs expenses to sell and issue its contracts, including the payment of a commission to its agents, and these expenses are taken into consideration when interest rates, caps, asset fees and participation rates are established and reset. You will receive all benefits as set forth in the contract.
- Your state has a law that gives you a set number of days to look at an annuity after you buy it. If you decide during that time that you don't want it, you can return the annuity and get all your money back. Please review your contract after delivery to confirm the number of days you have.

American Equity The One Who Works for You.

Retirement Gold

Indexed Annuity Disclosure

American Equity's Retirement Gold allows for long-term accumulation of money you don't anticipate needing in the short term. Retirement Gold is a flexible premium deferred indexed annuity.

Bonus

Credited on all 1st year premiums, the bonus increases your Contract Value by 8%. We add the bonus to the Contract Value on the date we receive premiums and allocate it to the same values as your premiums. The bonus amount is vested over a 14 year period. Starting in the 4th contract year, a percentage of the bonus becomes guaranteed annually. That percentage increases each year through the 14th contract year according to the Bonus Vesting Schedule shown below. The bonus is 100% fully vested in the Death Benefit and Income Account Value as of the Contract Date.

Additional Contract Information

Contract Value: The sum of the Fixed Value and the Indexed Values. It is calculated each Contract Anniversary.

Accrued Premium Amount: The portion of the Contract Value resulting from your premiums.

Accrued Bonus Amount: The portion of the Contract Value resulting from the bonus.

Cash Surrender Value: The amount payable at Surrender during the Bonus Vesting Schedule Period equals the greater of:

- (1) Accrued Premium Amount minus any applicable Surrender Charges, plus the vested portion of your Accrued Bonus Amount; or
- (2) Minimum Guaranteed Surrender Value.

Surrender Charges

We apply Surrender Charges on Partial Withdrawals or Surrenders during the Surrender Charge Period as follows:

- **At Partial Withdrawal** - the amount resulting from your Accrued Premium Amount multiplied by the Surrender Charge Percentage; or
- **At Surrender** - the Accrued Premium Amount, plus any Penalty-free Withdrawals from your Accrued Premium Amount in the last 12 months, multiplied by the Surrender Charge Percentage. **Surrender Charges do not apply to Your Accrued Bonus Amount.**

Surrender Charge and Bonus Vesting Schedule¹

Year	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15+
SC%	12.5	12	12	11	10	9	8	7	6	4	0	0	0	0	0
Bonus Vesting%	0	0	0	8.33	16.67	25	33.33	41.67	50	58.33	66.67	75	83.33	91.67	100

Issue Ages 0-78 • Surrender Charges may vary by state. Premium Bonus contracts may have higher surrender charges and asset fee rates and/or lower participation, cap, and interest rates.

The Minimum Guaranteed Surrender Value equals 87.5% of premiums paid, minus any withdrawals, all accumulated at the Minimum Guaranteed Interest Rate-Minimum Guaranteed Surrender Value (MGIR-MGSV).

Accessibility

You may make withdrawals from your Annuity Contract. Withdrawals include amounts withdrawn under both the Penalty-free Withdrawal and Partial Withdrawal options. We allow Penalty-free Withdrawals of up to 10% of Your Contract Value once each Contract Year after the first Contract Year. Withdrawals will be deducted from both the Accrued Premium Amount and Accrued Bonus Amount on a pro-rata basis, and you will receive the vested portion of your bonus, calculated as follows:

- **At Partial Withdrawal** - the pro-rata portion of the Partial Withdrawal Amount allocated to your Accrued Bonus Amount multiplied by the Bonus Vesting %; or
- **At Surrender** - your Accrued Bonus Amount multiplied by the Bonus Vesting % minus the non-vested portion of any Penalty-free Withdrawals taken from your Accrued Bonus Amount in the last 12 months.

Our special feature riders are for annuitants under the age of 75. See Annuity Riders brochure #1001 for more details.

Maturity Date is the date annuity payments must begin. You may begin receiving distributions from this contract before the Maturity Date.

Death Benefit

The Death Benefit is payable in a variety of ways. Your beneficiary(ies) will have access to your contract's full value. Death Benefit payment options are a lump sum payout, the guaranteed income of annuitization, penalty-free and continued tax deferral if you are a spouse. The Death Benefit is the greater of the Contract Value or Minimum Guaranteed Surrender Value at the death of the Annuitant or Owner, whichever comes first.

Tax Treatment

You may be subject to a 10% federal income tax penalty if you make withdrawals or surrender this Annuity before age 59½. If this Annuity is within a qualified plan all distributions may be taxable. Under current tax laws, contract values accumulate and grow tax deferred. An Annuity is not required for tax deferral in a qualified plan. Any distribution may cause a taxable event. Neither American Equity nor our agents offer legal, investment, or tax advice. Please consult your own personal advisor for these matters.

Minimum Guarantees

The Minimum Guaranteed Interest Rate is set on the issue date and is guaranteed for the life of the Annuity Contract. It is guaranteed to never be less than 1%, and applies to Minimum Guaranteed Surrender Value only. The Fixed Value Minimum Guaranteed Interest Rate is 1%.

Retirement Gold

Calculating Index Credit

Your Contract Value equals the sum of the Fixed and Indexed Values. The Fixed Value is calculated based on a fixed interest rate rather than an index credit; and the Fixed Value Guaranteed Initial Interest Rate is applicable to your initial premium only. If you add additional premiums to your contract, they may be subject to different rates. The total Indexed Value is the sum of all of the Indexed Value calculations. American Equity applies Index Credit on your Contract Anniversary. You will also have the benefit of an annual reset of index credits. Your index credits become part of the Contract Value once credited and can never be lost or taken away from your Contract Value due to market volatility. During a contract year, if you have any type of payout (such as Death Benefit, Annuitization, Withdrawals or Surrender) you will not receive an Index Credit for that contract year.

Choosing Your Value Allocations

As a contract owner, you will choose how to allocate your total initial premium. You may make additional premium payments in any amount and frequency within the premium limits. Additional premiums are automatically credited to the Fixed Value. The annuity contract offers additional flexibility by allowing you to transfer money in or out of any value on each contract anniversary, subject to these minimums:

- The minimum initial premium is \$5,000.
- The minimum allocation for each value is \$1,000.
- The minimum transfer to select a new value is 10% of the Contract Value.

Total Initial Premium Allocation:

Percentages must be whole numbers. Decimals will NOT be accepted.

1	_____	%
2	_____	%
3	_____	%
4	_____	%
5	_____	%

Retirement Gold

Indexed Annuity Disclosure

American Equity's Retirement Gold allows for long-term accumulation of money you don't anticipate needing in the short term. Retirement Gold is a flexible premium deferred indexed annuity.

Bonus

Credited on all 1st year premiums, the bonus increases your Contract Value by 8%. We add the bonus to the Contract Value on the date we receive premiums and allocate it to the same values as your premiums. The bonus amount is vested over a 14 year period. Starting in the 4th contract year, a percentage of the bonus becomes guaranteed annually. That percentage increases each year through the 14th contract year according to the Bonus Vesting Schedule shown below. The bonus is 100% fully vested in the Death Benefit and Income Account Value as of the Contract Date.

Additional Contract Information

Contract Value: The sum of the Fixed Value and the Indexed Values. It is calculated each Contract Anniversary.

Accrued Premium Amount: The portion of the Contract Value resulting from your premiums.

Accrued Bonus Amount: The portion of the Contract Value resulting from the bonus.

Cash Surrender Value: The amount payable at Surrender during the Bonus Vesting Schedule Period equals the greater of:

- (1) Accrued Premium Amount minus any applicable Surrender Charges, plus the vested portion of your Accrued Bonus Amount; or
- (2) Minimum Guaranteed Surrender Value.

Surrender Charges

We apply Surrender Charges on Partial Withdrawals or Surrenders during the Surrender Charge Period as follows:

- **At Partial Withdrawal** - the amount resulting from your Accrued Premium Amount multiplied by the Surrender Charge Percentage; or
- **At Surrender** - the Accrued Premium Amount, plus any Penalty-free Withdrawals from your Accrued Premium Amount in the last 12 months, multiplied by the Surrender Charge Percentage. **Surrender Charges do not apply to Your Accrued Bonus Amount.**

Issue Ages 0-78 • Surrender Charges may vary by state. Premium Bonus contracts may have higher surrender charges and asset fee rates and/or lower participation, cap, and interest rates.

The Minimum Guaranteed Surrender Value equals 87.5% of premiums paid, minus any withdrawals, all accumulated at the Minimum Guaranteed Interest Rate-Minimum Guaranteed Surrender Value (MGIR-MGSV).

Accessibility

You may make withdrawals from your Annuity Contract. Withdrawals include amounts withdrawn under both the Penalty-free Withdrawal and Partial Withdrawal options. We allow Penalty-free Withdrawals of up to 10% of Your Contract Value once each Contract Year after the first Contract Year. Withdrawals will be deducted from both the Accrued Premium Amount and Accrued Bonus Amount on a pro-rata basis, and you will receive the vested portion of your bonus, calculated as follows:

- **At Partial Withdrawal** - the pro-rata portion of the Partial Withdrawal Amount allocated to your Accrued Bonus Amount multiplied by the Bonus Vesting %; or
- **At Surrender** - your Accrued Bonus Amount multiplied by the Bonus Vesting % minus the non-vested portion of any Penalty-free Withdrawals taken from your Accrued Bonus Amount in the last 12 months.

Our special feature riders are for annuitants under the age of 75. See Annuity Riders brochure #1001 for more details.

Maturity Date is the date annuity payments must begin. You may begin receiving distributions from this contract before the Maturity Date.

Death Benefit

The Death Benefit is payable in a variety of ways. Your beneficiary(ies) will have access to your contract's full value. Death Benefit payment options are a lump sum payout, the guaranteed income of annuitization, penalty-free and continued tax deferral if you are a spouse. The Death Benefit is the greater of the Contract Value or Minimum Guaranteed Surrender Value at the death of the Annuitant or Owner, whichever comes first.

Tax Treatment

You may be subject to a 10% federal income tax penalty if you make withdrawals or surrender this Annuity before age 59½. If this Annuity is within a qualified plan all distributions may be taxable. Under current tax laws, contract values accumulate and grow tax deferred. An Annuity is not required for tax deferral in a qualified plan. Any distribution may cause a taxable event. Neither American Equity nor our agents offer legal, investment, or tax advice. Please consult your own personal advisor for these matters.

Minimum Guarantees

The Minimum Guaranteed Interest Rate is set on the issue date and is guaranteed for the life of the Annuity Contract. It is guaranteed to never be less than 1%, and applies to Minimum Guaranteed Surrender Value only. The Fixed Value Minimum Guaranteed Interest Rate is 1%.

Retirement Gold

Calculating Index Credit

Your Contract Value equals the sum of the Fixed and Indexed Values. The Fixed Value is calculated based on a fixed interest rate rather than an index credit; and the Fixed Value Guaranteed Initial Interest Rate is applicable to your initial premium only. If you add additional premiums to your contract, they may be subject to different rates. The total Indexed Value is the sum of all of the Indexed Value calculations. American Equity applies Index Credit on your Contract Anniversary. You will also have the benefit of an annual reset of index credits. Your index credits become part of the Contract Value once credited and can never be lost or taken away from your Contract Value due to market volatility. During a contract year, if you have any type of payout (such as Death Benefit, Annuitization, Withdrawals or Surrender) you will not receive an Index Credit for that contract year.

Choosing Your Value Allocations

As a contract owner, you will choose how to allocate your total initial premium. You may make additional premium payments in any amount and frequency within the premium limits. Additional premiums are automatically credited to the Fixed Value. The annuity contract offers additional flexibility by allowing you to transfer money in or out of any value on each contract anniversary, subject to these minimums:

- The minimum initial premium is \$5,000.
- The minimum allocation for each value is \$1,000.
- The minimum transfer to select a new value is 10% of the Contract Value.

Total Initial Premium Allocation:

Percentages must be whole numbers. Decimals will NOT be accepted.
